

Air1 is the best Christian and Public radio station I've ever had the opportunity to listen to. I work in a youth group that all Loves the station and keeps them listening to postitive things, rather than the alternative negative broadcasts that influence too many of our youth. If Air1 were to be replaced I would be greatly disappointed and would let down our community. It would be of the public's BEST interest to keep this GREAT station up and running as it has been a GREAT POSITIVE influence and hope it will be in the future if the right decision is made for it to be kept. Thanks!!!!
